

Is your business **ready** **for the cloud?**

Find out with our quick cloud readiness assessment.

Whether you're still relying on aging servers or considering moving legacy systems into Microsoft Azure or Microsoft 365, this short checklist will help you understand your starting point - and what's possible.

Tell us about your current set-up

Q1. Are you using any servers or IT equipment that's more than 3-5 years old?

☐ Yes ☐ No ☐ Not sure

Q2. Do you have any older business applications that are difficult to update or only run on local machines?

☐ Yes ☐ No ☐ Not sure

Q3. Are you currently using Microsoft 365 (e.g., Outlook, Teams, OneDrive, SharePoint)?

☐ Yes ☐ No ☐ Not sure

Q4. Do you have legal, compliance, or industry-specific data protection requirements?

☐ Yes ☐ No ☐ Not sure

Q5. How reliable is your internet connection at your main office location?

☐ Very reliable ☐ Somewhat reliable ☐ Not great

Q6. Do you feel your current IT support and hardware costs are too high or unpredictable?

☐ Yes ☐ No ☐ Not sure

Q7. Would you benefit from your team being able to securely work from anywhere?

☐ Yes ☐ No ☐ Already do this
