

Purview baseline packages.

Establish a baseline of Purview settings and leverage M365 tools to maintain governance and compliance across your files and content.

Microsoft 365 Purview empowers organisations to safeguard and manage their data across Microsoft 365, ensuring compliance and control without compromising productivity. We've created baseline packages for the Purview technology within the Microsoft 365 E3, Business Premium and Microsoft 365 E5 plans.

Our Purview baseline solutions include:

Purview baseline
for Microsoft 365
E3 or Business
Premium

Purview baseline
for Microsoft 365
E5 or the Purview
Suite

Required technology for the Purview baseline packages:

	BP*	E3	PS*	E5
Sensitivity labels	✓	✓	✓	✓
Data loss prevention	✓	✓	✓	✓
Retention	✓	✓	✓	✓
Insider risk management			✓	✓
Communication compliance			✓	✓
Data security posture management			✓	✓

*BP: Business Premium *PS: Purview Suite

Our approach includes:

Workshops

Settings configuration

Creation of a central
site for training and
awareness

Pilot programmes for a
small selection of users

Training to all IT
stakeholders for handover
and knowledge transfer

The baseline solutions have been designed to enable faster adoption, accelerate deployment, minimise complexity, and deliver secure environments quickly.

Get started with Purview.

Work with Microsoft 365 experts to implement a baseline of settings and configurations for the Purview technology already included within your Microsoft 365 plan.

E3 & Business Premium

This engagement aims to establish a baseline implementation of Purview for Microsoft 365 E3 or Business Premium.

At a high level, this engagement is as follows:

- A review of your Microsoft 365 environment
- Purview baseline implementation and configuration of:
 - Sensitivity labels and policies
 - Data loss prevention (DLP) policies
 - Retention labels
- A write up of our findings and implementations and a hand over to you

E5 & Purview Suite

This engagement aims to establish a baseline implementation of Purview for Microsoft 365 E5 or the Purview Suite.

At a high level, this engagement is as follows:

- A review of your Microsoft 365 environment
- Purview baseline implementation and configuration of:
 - Sensitivity labels and policies including auto labelling
 - Data loss prevention (DLP) policies
 - Retention labels
 - Insider risk management
 - Communication compliance
 - DSPM for AI
- A write up of our findings and implementations and a hand over to you

Wherever you are in your Purview journey, we're here to help.

Talk to our team to get started on securing your environment today.
